

# 小蚁运动相机2英文使用指南

## 正面:

Thank you for choosing YI 4K Action Camera

**1.Camera kit**

**2.Getting to know the camera**

**3.Insert/Remove Micro SD card (sold separately)**

**To insert Micro SD card:**  
1. Open the battery cover by following step 3 above.  
2. Insert the Micro SD card with the label facing the front of the battery. The card will slot in with some resistance.  
**To remove Micro SD card:**  
1. Press the ejection button on the side of the camera. The card will pop out.  
2. Gently pull the card out.

**Tip:** We recommend micro SD card at [www.yitechnology.com](http://www.yitechnology.com) to ensure high-quality of videos.

**4.Insert/Remove battery**

**To insert the battery:**  
1. Open the battery cover by following step 3 above.  
2. Insert the battery into the battery slot following the arrow direction.  
3. Close the battery cover and check the cover is closed firmly.  
**To remove the battery:**  
1. Press the ejection button on the side of the camera.  
2. Gently pull the battery out and remove from the battery slot.

**5.Battery charging**

**To charge the battery:**  
1. Connect the camera to a power source or computer with the Micro USB cable.  
2. The camera will power on and the battery icon will show a full charge.  
3. The red status light will turn ON when the battery is charging.  
4. The red status light will turn OFF when the battery is fully charged.

## 背面:

**6.How to use the camera**

**1) Powering on and off:**  
To power on: Press the Power/Shutter Button. The screen will turn on and there will be a sound.  
To power off: Long press the Power/Shutter Button. The screen will turn black and there will be a sound.  
**Tip:** Follow the quick interface introduction when you power on the camera the first time.

**2) Connected to YI Action Camera App**

Scan the following QR code to download YI Action Camera App and install the app on your smartphone or tablet.  
Or you can find the App on the App Store or Google Play store by searching for YI Action Camera App.  
Open the YI Action Camera App. The connection interface as shown in the figure below. You can follow the steps to connect the camera.

**Tip:** Control settings and mode or transfer files from your camera to your phone.

**3) Firmware update**

The most current camera firmware will be downloaded automatically when you launch your YI app. Please check the camera's firmware version for the best performance. Please visit the most updated version.  
Update from the App. Make sure the camera is connected to a power source or has more than 50% battery life.

**4) Transferring files**

Please visit [www.yitechnology.com](http://www.yitechnology.com) or email [sales@yitechnology.com](mailto:sales@yitechnology.com) for more information.  
**BEFORE YOU START TRANSFER FILES:**  
1. Make sure the camera is fully charged.  
2. Connect the camera to your computer.  
3. Connect the camera to your smartphone or tablet.  
4. Connect the camera to your TV or monitor.  
5. Connect the camera to your car stereo.

**7.Key accessories (sold separately)**

The device complies with Part 15 of the FCC Rules. Industry Canada Bureau of Standards (BIS) is responsible for the certification of this equipment. This device may not cause harmful interference, and it must accept any interference that it may receive from radio transmitting devices.  
**Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment complies with the limits for a Class B digital device, which may cause harmful interference to other wireless devices in certain situations. If you are experiencing interference, you may need to take the following steps: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

**Under Industry Canada regulations, this radio transmitter may only operate within an authorized frequency band without causing harmful interference. It must accept any interference that it may receive from radio transmitting devices.**  
**Charges or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.**
